-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 January 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Claims 1-13, 18-24 and 27 are pending in the present application.

Drawings

2. The drawings were received on January 12, 2004. These drawings are not approved.
3. The drawings are objected to because they fail to show necessary textual labels of features with a written description would give the viewer necessary detail to fully understand the element at a glance. Placing a descriptive textual label next to elements 403-433 in figure 4 would give the viewer a better understanding of the figure without substantial analysis of the detailed specification. Note 37 CFR 1.84 A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: note figure 1 reference 103₀, 103₁, 103_{1A}, and 103₆₅₅₅₃₅. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

5. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "107" has been used to reference different cells. Also note element 105_a, 105_b, 105_c and 105_d figure 1. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 1-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The limitation "tuple" in independent claims 1 and 21 is not described within the specification. Note the disclosure does not appear to lend support for the limitation "storing a tuple in an index at a position corresponding to at least a portion of the first cyclical redundancy check value". The limitation is not logically possible and the disclosure does not appear to give special definitions for the interpretation of an index

nor does it make reference to a tuple. Claims 2-20 and 22-27 are rejected based on dependency.

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 1-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-20, the following limitation is vague: "storing a tuple in an index at a position corresponding to at least a portion of the first cyclical redundancy check value" [note claim 1 lines 5-6]. It is unclear as to how an index can store a tuple, also the disclosure does not appear to use the term tuple.

Regarding claims 21-27 the following limitation is vague: tuple.

Response to Arguments

10. Applicant's arguments with respect to claims 1-13, 18-24 and 27 have been considered but are moot in view of the new ground(s) of rejection. In the response Applicant argued that the prior art fails to teach the claims as amended, in response note new rejection supra under 35 USC 112 first and second paragraph. Applicant's amendment of the drawings are not approved because they are not fully responsive to the objections. Also Applicant has not modified figure 1 and 4 to comply with 37 CFR 1.84.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
